Building Men for Life

THE END OF THE YEAR IS IN SIGHT!

This week Year 9 and 10 students have been taking part in various camps and activities around the South Island and the school. Highlights from both of these activities feature below.

The junior students' school year culminates on Tuesday with Prize Giving and after that, their Summer Holidays begin.

We'd like to take this opportunity to wish you all a Merry Christmas and safe and happy holiday season.

Japanese Fun

One of the Year 10 Japanese classes did some Japanese calligraphy and each boy wrote Japan in kanji, along with their name in katakana.

When Mathematics and Science get together it can be called Engineering.

Geometry and Forces in compression and tension was the academic focus, and then it was about having some fun and building a spaghetti tower. The tower that could hold up the most number of Physics text books was the winner.

The winning group consisted of Jacob Burnett, Anthony Lloyd and Tumai Cassidy whose tower held up several text-books before failure. An old Engineering saying is that you can build out of anything including spaghetti, as long as you can keep it dry. Al dente spaghetti is for cooking not building!

John Bell and Stephanie Commins.

Milford Track

Jamie McIvor gets up close and personal with the locals on the MacKinnon Pass while walking the Milford Track.

Members of 9Co create a tableau entitled "St Clair beach on Sunday morning."
